

### Convenient

The Homespring Central Water Purifier is installed at the point where water enters the house, providing unlimited, purified water from every faucet in your home. It effectively filters city, well or lake water and is virtually maintenance free.

### Great Tasting

Enjoying great tasting water is now as easy as turning on your tap. Bottled water taste is now available on demand throughout your entire home.

### Purified

The Patented Homespring Central Water Purifier has been tested and certified to meet the USEPA Standards for Testing Microbiological Water Purifiers. This revolutionary ultrafiltration membrane technology provides purified water by significantly reducing pathogens, including bacteria, viruses and cysts. You and your family enjoy peace of mind when drinking, bathing or preparing food with pure water from every tap.

For more information on convenient, great tasting, purified water from every faucet in your home, please contact your local Homespring Dealer

The Homespring UF200 Series\* Water Purifiers have been Tested and Certified by the Water Quality Association (WQA) to the USEPA's Guide Standard and Protocol for Testing Microbiological Water Purifiers (OPP Task Force Report, 1987) as interpreted by the WQA and to NSF/ANSI 42 and 53.

\*Applies to the following models: UF 207, UFC 207, UF 209, UFC 209, UF 211, UFC 211

**NSF International is the world's leading testing and certification laboratory for Water Treatment Products**

System Tested and Certified by NSF International against NSF/ANSI 42 and 53 for:

- Cyst Reduction
- Turbidity Reduction
- Particulate Reduction - Class 1
- Chlorine, Taste and Odour

The Hoespring UF 200 Water Filtration System should only be installed where the System and the installation complies with state and local laws and regulations. The Hoespring UF 200 Water Filtration System should only be used to filter water that is cold. The Hoespring UF 200 Water Filtration System conforms with ANSI/NSF 42/53 for the specific performance claims as verified and substantiated by test data.

NELAP\* and California Department of Health accredited laboratory  
 \* National Environmental Laboratory Accreditation Program (NELAP)  
 Accredited #05234CA. The Hoespring UF200 Series\*\* Water Purifiers have been tested by BioVir\* Laboratories Inc. and found to meet all the requirements of the USEPA's Guide Standard Protocol for Testing Microbiological Water Purifiers (OPP Task Force Report, 1987) as interpreted by the BioVir\* Laboratories specifically for the Hoespring UF200 Series Products.

The test results were:  
 Bacteria Reduction\*\* - 99.99999%  
 Virus Reduction\*\*\* - 99.999%

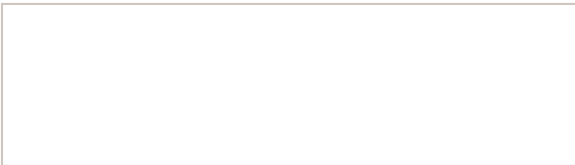

\*\*Applies to the following models: UF207, UFC207, UF209, UFC209, UF211, UFC211

Member - Water Quality Association (WQA)

### Additional Information

The Hoespring Central Water Purifier must be installed by an authorized Hoespring technician and properly maintained in accordance with the Homeowner's Manual. Failure to properly maintain the system will compromise performance and/or result in a failure to control water quality. Improvements to taste result when the system is used with the optional carbon filter. Biofilm and pathogens in home piping systems could shed into water after it has been filtered through our system. Exposure to microorganisms may also occur during daily activities.

PURE TASTING, SAFER WATER  
FROM EVERY FAUCET IN YOUR HOME

# Welcome.

*It's a New Era for Great Tasting, Purified Water from Every Faucet in Your Home.*

Experts and families agree, the convenient household water revolution is overdue. Exotic bottled water, water coolers, jug filters and one-faucet filters are yesterday's news. Modern families want crystal clear, purified water from every faucet in the home, with award-winning ultrafiltration membrane technology.

Innovative, natural and efficient, it's from ZENON

Membrane Solutions, leaders of the revolution in advanced water filtration products for more than 25 years.

Internationally recognized, this patented technology treats drinking water and wastewater in municipalities, industries and at peacekeeping missions all over the world.

Welcome to a new era for great tasting purified household water.

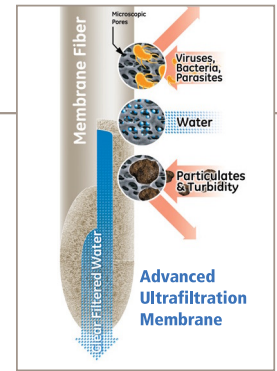

Welcome to Homespring.

*Convenient, Great Tasting Purified Drinking Water*

**homespring™**

## How It Works

- 1 Inlet**  
Ultrafiltration technology filters municipal, well, cistern, lake and river water. It is easy to install where the water supply enters the house in new or existing homes.
- 2 Pre-filter**  
An optional Activated Carbon Pre-filter improves taste and minimizes unwanted odours.
- 3 Ultrafiltration Membrane**  
Ultrafiltration membranes are an effective block against undesirable particles, bacteria, viruses, and cysts to provide microbiologically purified water.
- 4 Continuous Supply**  
The Homespring Central Water Purifier uses normal water pressure to provide a continuous supply of water. If the power fails the system continues filtering.
- 5 Drain**  
The Homespring Central Water Purifier effectively flushes all rejected impurities down the drain during the automatic cleaning cycle.
- 6 Outlet**  
Filtered water flows to the water heater and directly to every faucet, shower or bath in the home.
- 7 Automatic Cleaning Cycle**  
The system automatically flushes itself clean and flushes impurities down the drain during a pre-selected time each day.

*How the Homespring Central Water Purifier compares with other whole-house technologies.*

System Capabilities	Homespring Central Water Purifier	Ultraviolet Systems	Ozone Systems	Reverse Osmosis Systems	Chlorine Systems	Carbon Filters
Removes bacteria and viruses	YES*	NO	NO	YES	NO	NO
Removes parasites	YES*	NO	NO	YES	NO	SOME
Efficient self-cleaning	YES	SOME	NO	NO	NO	NO
Keeps filtering if power fails	YES	NO	NO	YES	SOME	YES
Improves taste	YES	NO	SOME	SOME	NO	YES
Removes cloudiness	YES	NO	NO	YES	NO	YES
